Palakkad, Kerala

PROFESSIONAL SUMMARY

Computer Science graduate with experience in software testing, web application development, and quality assurance. Skilled in Python, JavaScript, SQL, Manual Testing, API Testing, Postman, Jira, and Full-Stack Development. Experienced in designing test cases, identifying defects, validating business requirements, and building responsive applications. Strong problem-solving, debugging, and collaboration skills with a focus on delivering scalable and high-quality software products.

TECHNICAL SKILLS

Programming: Python, JavaScript, SQL, HTML

Testing: Manual Testing, API Testing, STLC, Regression Testing, Functional Testing, Test Case Design, Defect Tracking

Tools: Postman, Jira, Git

Development: Full-Stack Development, REST APIs, Web Applications, Generative AI

PROFESSIONAL EXPERIENCE

Junior Software Tester & Software Engineer Trainee | SOFTWN Technologies (Oct 2022 – Apr 2023)

- Executed manual and functional testing activities across multiple software modules.
- Logged, tracked, and verified defects throughout the Software Testing Life Cycle (STLC).
- Collaborated with developers to reproduce issues, validate fixes, and improve software quality.
- Participated in requirement analysis, test planning, and quality assurance reviews.

PROJECTS

Plane Ticket Booking Website – Manual Testing Project

Performed end-to-end testing of flight search, booking, payment gateway integration, ticket cancellation, and booking history modules. Designed test cases, executed functional and regression tests, reported defects, and validated bug fixes to ensure a seamless user experience.

Lexi Assist – AI Legal Research Assistant

Developed a Python-based AI assistant leveraging Large Language Models (LLMs) to automate legal query resolution, document analysis, and statute summarization. Improved information retrieval efficiency through AI-powered natural language processing.

EV Mech Finder

Built a location-based service discovery platform connecting electric vehicle owners with certified EV mechanics. Implemented proximity-based search features to simplify access to specialized repair services.

KSRTC Holiday Ticket Booking System

Developed a responsive web application for holiday bus ticket reservations. Focused on user-friendly booking workflows, efficient ticket management, and handling increased traffic during peak travel periods.

EDUCATION

B.Tech – Computer Science Engineering | MCET Malabar (2023–2026)

Diploma in Computer Science Engineering | GPTC Thrissur (2019–2022)

Higher Secondary Education | GHSS Mundur (2017–2019)

ADDITIONAL INFORMATION

Languages: English, Malayalam, Tamil

NSS Volunteer (8 Years)

Areas of Interest: Software Engineering, Quality Assurance, Web Development, Artificial Intelligence
